**SPH CME CONFERENCE
for Primary Care**

71st Annual St. Paul's Hospital Continuing Medical Education Conference for Primary Care

Vancouver Convention Centre West
November 18 – 21, 2025

DEPARTMENT OF
FAMILY MEDICINE

Leaders in primary care, champions
of community health

71st Annual St. Paul's Hospital Continuing Medical Education Conference for Primary Care

The annual **Continuing Medical Education (CME) Conference** is a unique opportunity to refresh your knowledge about primary care medicine and revitalize your enthusiasm for the field. The conference will provide an evidence-based review of practical information and new trends and will discuss controversial topics useful for primary care clinicians practicing in urban or rural areas. Its educational activities will include a Main Lecture Series (MLS), which will provide a comprehensive review of Cardiology, Geriatrics, Internal Medicine, Surgery, Therapeutics & Investigations, Psychiatry & Behavioural Medicine, Oncology & Palliative Care, and Gynaecology & Paediatrics. Our exemplary guest speakers have been selected based on their experience and expertise and their ability to deliver informative presentations in an engaging and impactful way. Each of our sessions has been designed to provide ample time for audience questions. The conference reflects our commitment to equity, diversity, and inclusion, and promotes clinician wellness through connection, reflection, and shared learning.

Learning Objectives

The conference and curriculum have been designed to ensure all participants will acquire an enhanced ability to:

- Analyze current issues in primary care medicine;
- Review new guidelines for the treatment of diseases and disorders commonly encountered in family practice;
- Discuss cases regarding new treatment options and technological advances; and
- Identify new evidence-based treatments using the most up to date clinical and scientific information.

Certification

CFPC: The Main Lecture Series Program* and Optional Learning Sessions have been certified by the College of Family Physicians of Canada and the BC Chapter for up to 35 Mainpro+® Certified Activity Credits.

AAFP: Members of the American Academy of Family Physicians are eligible to receive up to 35 Prescribed credit hours for attendance at this event (Main Lecture Series Program* and Optional Learning Sessions) due to a reciprocal agreement with the College of Family Physicians of Canada.

*The Main Lecture Series Program has been certified for up to 25 Mainpro+® Certified Activity Credits.

Financial Disclosure

Any conference-generated surplus is reinvested in St. Paul's Hospital (SPH) family practice resident education, departmental strategic initiatives, research, teaching, and UBC faculty development activities.

Please visit www.stpaulscme.org for full conference details and to register

Networking Mixer

The St. Paul's Hospital CME for Primary Care Conference is more than a great opportunity to refresh our knowledge about primary care medicine, it's also a wonderful opportunity to make new connections and reunite with old friends. On Tuesday at 5pm, join us as we kick-off our exciting week in Vancouver with a fun mixer where we'll share laughs and great conversation while enjoying delicious food and drinks and spectacular views of the majestic North Shore mountains. We'll see you there! The Networking Mixer is complimentary with MLS registration, limited to registered delegates only. RSVP is required at the time of registration.

Please visit www.stpaulscme.org for full conference details and to register

MAIN LECTURE SERIES

Optional Learning Sessions

(Monday In-Person Workshop)

An Introduction to Practical Dermoscopy Workshop

Dr. David Swanson

Professor of Dermatology, Mayo Clinic, Scottsdale, Arizona
Executive Board Member International Dermoscopy Society

Optional full-day, In-Person workshop that precedes the Main Lecture Series

LEARNING NEEDS: With increasing rates of malignant melanoma worldwide and increased awareness by the public to monitor new and changing moles, Dermoscopy is proven to be a very useful adjunct to in-office screening of melanocytic and non-melanocytic lesions. Participants will develop/enhance their practical assessment skills of patients with atypical skin lesions. You will learn how to apply pattern analysis and simple algorithms for the identification of skin lesions, and to assess the need to biopsy based on dermoscopic findings. You will learn to identify and understand the differing histological characteristics for specialized skin areas of the body and also learn the new UV light application to dermoscopy.

SKILL SET: Aimed at all levels: for novices, it'll get you up and offer a good review to solidify learning for intermediates and new concepts for those who are advanced (it's a fast-moving field). There will be plenty of time for questions.

Date: Monday, November 17th, 2025

Time: 08:00 – 17:00

Location: Vancouver Convention Centre West, West Meeting Rooms 109/110

Cost: \$450

Credit: 8 Mainpro+® Credits

Maximum 175 registrants (First come, first served)

Optional Small Group Lunch Learning Workshops

(In-Person Workshops)

A Toolbox for Challenging Patient Encounters*

*available to in-person MLS registrants only

Dr. Debra Hamer

Assistant Professor and Shared-Care Psychiatrist at Queen's University

Too often in primary care practice, good intentions to provide quality care are thwarted by challenging patient behaviours that put a strain on both physicians and their office staff. What transpires is growing frustrations that impact physician burnout and can lead to compromised care. In this 60-minute workshop, Dr. Hamer will use tools from attachment theory, trauma-informed care, and dialectical behavioural therapy (DBT) to help participants better understand what drives these behaviours. Through this workshop, participants will acquire added insights and a greater ability to navigate these challenging patient encounters.

Date: Tuesday, November 18th, 2025

Time: 12:30 – 13:30

Location: Vancouver Convention Centre West, West Meeting Rooms 107/108

Cost: \$40 (Lunch is included)

Credit: 1 Mainpro+® Credit

Maximum 50 registrants (First come, first served)

- Add workshop when registering for the MLS

Narrative Medicine*

*available to in-person MLS registrants only

Dr. Debra Hamer

Assistant Professor and Shared-Care Psychiatrist at Queen's University

In this workshop, Dr. Hamer will explore how narrative medicine can be used in health care to build narrative competence and reflective practice. Narrative medicine is now used in many leading medical schools and hospitals across North America as a powerful way for physicians to build agency and compassion. In this 60-minute workshop, participants will have an opportunity to be creative, write and explore in a supportive environment. There will be opportunities to learn and practice narrative skills, such as analysis of visual texts and poetry, as well as writing with prompts. Participants will gain valuable new insights and tools for their personal growth and professional practice.

Date: Wednesday, November 19th, 2025

Time: 12:15 – 13:15

Location: Vancouver Convention Centre West, West Meeting Rooms 107/108

Cost: \$40 (Lunch is included)

Credit: 1 Mainpro+® Credit

Maximum 50 registrants (First come, first served)

- Add workshop when registering for the MLS

Please visit www.stpaulscme.org for full conference details and to register

*Note: This session has not been certified by the College of Family Physicians of Canada

Making Decisions Under Stress

Ms. Amy Englemark

The ability to make clear, confident decisions under stress is essential in medicine, yet many family doctors find themselves overwhelmed by time pressures, emotionally taxing cases, and the expectations of patients and colleagues. Navigating these challenges while maintaining professionalism and personal well-being is no easy task. Decision-Making Under Stress is designed to help you develop practical strategies to stay composed, focused, and energized—even in the most difficult situations.

Led by Amy Englemark, a dynamic speaker, physician coach, and author with extensive experience in stress management and sustainable leadership, this workshop will provide actionable tools to improve decision-making, set healthy boundaries, and reduce the mental load of high-pressure environments. With a deep understanding of the challenges medical professionals face, Amy brings a warm, yet direct and strategic approach to helping you maintain your well-being without compromising the quality of care you provide.

Amy is an accomplished keynote speaker, author of two books, physician leadership coach and stress management consultant. She's passionate about sustainable leadership, burnout prevention and career optimization to ensure health, wealth and happiness. She has worked with Canadian Women In Medicine (CWIM), Telus, TD, Coastal Community Credit Union, Remax, the Yukon Government and more. Her work has been featured in articles in WeBC, and magazines like Convention Southwest and Daring to Disrupt.

Date: Friday, November 21, 2025

Time: 12:15 – 1:15

Location: Vancouver Convention Centre West, West Meeting Room 109
